

TOMORROW'S SECURITY, DELIVERED TODAY.

Protection Service for Business is the best, most comprehensive endpoint protection package on the market, designed from the ground up to solve your challenging business security needs.

It protects all your endpoints, from Windows and Mac to mobile devices, against threats like ransomware, data breaches and 0-day attacks, without requiring significant maintenance or management overhead.

Protection Service for Business is the only unified multi-endpoint security solution that comes with integrated Patch Management, Mobile Device Management, and a Password Manager.

We are proven to provide superior and more consistent protection than our competitors, as verified by independent security experts. Thanks to our pioneering security technologies, such as real-time threat intelligence and advanced machine learning algorithms, we are always one step ahead of the attackers.

Protection Service for Business

Computer Protection

Powerful, layered, award-winning security for Windows & Mac computers.

- AV-TEST Best Protection, 2010-2014 and 2016
 - Includes patch management for Windows computers
 - Uses advanced behavioral and heuristic analysis
 - Leverages artificial intelligence and machine learning
-

Freedom for Business

Protect against malware and data loss on iOS and Android mobile devices.

- Protects devices against malware and phishing
 - Prevents data loss via stolen devices and Wi-Fi snooping
 - Includes Mobile Device Management
 - Third-party MDM support available
-

Management Portal

Deploy, manage, and monitor everything through a single cloud-based console.

- Integrated mobile device management
 - Integrated patch management
 - Integrated password manager
 - No server hardware required
 - Full integration readiness for third-party management tools
-

Password Protection

Prevents data breaches and attacks leveraging weak or reused passwords.

- Minimizes reused and weak passwords in the workplace
- Securely stores and manages all passwords, log-in credentials, etc. in one place
- Generates strong and unique passwords with one click
- All passwords are encrypted and stored locally

Server Security

Protect your mission-critical communication, collaboration and data storage.

- Multi-platform server security
- Advanced behavioral analysis and heuristic analysis
- Fully integrated patch management
